ASSESSING TO INFORM

ACT and PreACT Data for the Teacher/Educator

Feb. 8th, 2023
9:00 - 10:30 AM CT

Gain insight into the valuable data created by the ACT and PreACT!

This workshop is designed to speak to the Teacher/Educator and to connect the data from each of these assessments in a manner to inform the instructional focus in your classroom.

Identify your student's and school's area of strengths and opportunities related to the ACT and for those who test with the PreACT, to this assessment as well. A listing of both ACT and PreACT data reports referenced in the webinar will be provided, along with the steps necessary that can be shared with the contact within your school so that they may produce these same reports from your school's ACT and PreACT data.

ACT WorkKeys Data for the North Dakota Educator

Feb. 22nd, 2023
9:00 - 10:30 AM CT

Schools across ND that use ACT WorkKeys will want to attend this webinar!

The focus of the webinar will be to prepare your students for the ACT NCRC Assessments of Applied Mathematics, Graphic Literacy, and Workplace Documents. Included in the webinar will be an overview to accessing and making sense of the data produced by your students' participation in these assessments.

Join us in this webinar to see an overview of ACT WorkKeys. Information will be provided to those attending that can be shared with others in your school and district on the steps taken to create the reports. Validate what you are already doing and gain additional knowledge to support your students' success.

REGISTER!

MULTIPLE ASSESSMENTS | NO COST TO YOU!

Each single-day training will be delivered virtually.
